MySQL

Tools

Git , Github

PROJECTS

Yas-Gift

- Founded and developed **YasGifts.me**, an innovative online gift portal. We connect people through thoughtful gifts, offering a seamless platform for ordering and delivering personalized surprises to any location.
- Project aimed to create a online gift marketplace, facilitating the collaboration of over 100 vendors to showcase and sell their product to thousands of customers.
- Leveraging my expertise in **React** for seamless UI, Redux Toolkit for efficient state management.

Real World Restaurants

- Developed a restaurant platform, '**BigDaddyForFoodies**,' using **React and ES6**, providing an enhanced dining experience for customers.
- The BigDaddyForFoodies platform offered a range of features to users, including menu browsing, online reservation, and order placement.

Weather API App

- Developed a weather application that fetches real-time weather data using the OpenWeather API.
- Utilized **React hooks (useState, useEffect)** for efficient state management and dynamic UI updates.
- Implemented **city search** and **geolocation-based weather detection** to improve user experience.

Personal Portfolio

- Constructed a personalized portfolio website with **React**, showcasing work history, academic accomplishments, technical skills, and extracurricular activities.
- Implemented **React** components to structure the portfolio and enhance interactivity.
- Utilized modern web development tools, including **HTML, CSS, Bootstrap and JavaScript**, to create a 100% responsive and visually appealing user interface.

CERTIFICATES

- | | | | |
|---|---|---|--|
| • HTML , CSS and Java Script for Web Developers, Coursera 🔗 | • Responsive Web Design, freecodecamp.org 🔗 | • C Programming Essentials Bootcamp, Lets Upgrade 🔗 | • Basic of Coding , AccioJob 🔗 |
